

LEONARDO ATANASIO RODRIGUES

PERFIL

I'm a Junior Programmer who focuses on Front-End, but in the future I intend to expand to Full-Stack. I really like and am willing to learn new technologies, I find it extraordinary how each technology has its peculiarity. My main goal currently is to enter the job market to expand my knowledge.

SKILLS

- Inglês intermediary
- React JS - TS
- JAVA
- Java Script
- Type Script
- HTML 5
- CSS 3
- VUE JS

MAIN PROJECT

React TS

In this project I developed a website where my friends and I give ratings for new movies. In this project I used React - TS, context API, css modules, React Router Dom. It is a static website, in the future I intend to learn about Back-end and thus make this project more interactive.
